Crowder's opinion that the United States is in a state of war with Mexico, has officially indersed and placed it on re-ord as a "decision of the War Depart ment." This was learned here to-day. The publication of Gen. Crowder's opinion has admittedly emberrassed both President Wilson and Secretary Baker. Mr. Baker has used the campaign slogan "He kept us out of war" as a doctrine in his speeches and other Cabinet memto do so. It is realized that Mr. Baker is placed in a peculiarly unfortunate position when he emphasizes on the stump that there is no state of war with Mexico, knowing all the time that officially he has placed himself squarely on record as deciding that "a state of war with Mexico exists."
